

Hi-Tech CONTAINERS FOR SEGREGATION OF WASTE

Hi-Tech containers for segregation of waste are based on the standard continental style bin.

Our recycling range of containers led by the flagship 1100 liter includes the 500, 660, and 1280 liter options to collect the smallest recyclable to the bulkiest cardboard collections, with a range of easy to use lids designed to engage the public in good recycling behavior

Certified and manufactured from high standard stainless steel and hot dip galvanized steel construction with internally welded seams. Color coding of container body and lid is available to meet customer requirements.

Continental container sizes.
