

Hi-Tech WASTE SEGREGATION SYSTEM FOR COMMERCIAL BUILDINGS AND PUBLIC PLACES

Hi-Tech recycling hoppers can be built into the wall of a store room or garbage room for easy access for shoppers or tenants at convenient ground floor or other floor location. Color coding and signage makes for easy selection of which hopper to use. Recycling hoppers are available in various sizes and any standard color to suit customer requirements. We also offer a comprehensive range of Plastic Wheel bins from 90L to 1000L

(Note: Colors used below for illustration purposes only)

This system is perfect solution for malls, business centre and public places .
